Our company is operating since 1985 and producing electric vehicles since that time. We started to produce Trackless trains in 1999 and still working on manufacturing and repairing of accumulator vehicles and spare parts supplying.

We developed our Trackless & electric powered trains with every single order and continue to do our best with international security standards.

We export our products all around the world. Our customer portfolio that is growing expeditiously every year is an indicator about our quality standards and reliability.

The secret or our success depends on 100% customer satisfaction principle. Within the frame of this principle we analyse the conditions that the vehicle will be used and we take the personnel who will use the vehicle in consideration in designing process of the vehicle.

Improving / Innovation: We can produce a technologically improved vehicle according to your needs also we can design and produce a very new and different product from the beginning according to your requirements.

Guarantee: All of our products are guaranteed for 2 year. Most of the parts used in the manufacture are domestic so it provides huge savings in maintenance and repair expenses.
ALLAME TRACKLESS TRAINS
ACCORDING TO EVERY NEED

1. **TRACKLESS TRAIN EFE**
   Our Best Selling Train
   - 1 Locomotive + 1 Coal Wagon + 3 Passenger Wagon
   - 24 kids or 16 adults
   - Battery Group
   - 48 V DC motor
   - 8 Batteries

2. **TRACKLESS TRAIN MAXI**
   Larger Wagons for Adults and Children
   - 1 Locomotive + 3 Passenger Wagon
   - 36 kids or 24 adults
   - Battery Group
   - 72 V DC motor
   - 12 Batteries

3. **TOURIST TRAIN PARK**
   Sightseeing Train
   - 1 Locomotive + 3 Passenger Wagon
   - 45 kids or 32 adults
   - Diesel or Gasoline Group
   - Deutz Motor (standard)
   - 43 HP Motor Power (standard)
Efe Train is a 5 car configuration and is comprised of one locomotive, one open coal car wagon and 3 covered passenger wagons. Efe Train is suitable for indoor and outdoor use. The main frame of steel locomotives and wagons for many years using water and shock resistant marine counter keeps its innovation without deforming. Efe is covered with foam and leatherette seating groups for the convenience of passengers.

- **LOCOMOTIVE**
  - Maximum Speed: 8km/h
  - Sizes (L"W"H): 280X105X185 cm
  - Motor: 48V DC motor
  - Batteries: 8 ad 200a Tracer battery
    - American Trojan Batteries
  - Battery Charge: Automatic
  - Charge Time: 8 hour
  - Controller: 48V 200A
  - Wheels: Back 4.50x10’ - Front 4.0x8’
  - Weight: 650 kg
  - Distance(km): 50 km full charge

- **WAGONS**
  - Coal wagon size: 140x90x100 cm
  - Passenger wagons size: 140X90x170 cm
  - Terraces wagon size: 140X90x170 cm
  - Max. carrying capacity: 210 kg/ each wagon
  - Wheels: 3.50x6’
  - Travelers: 24 children or 16 adult
  - Turning circle: 4.5 mt
  - Warranty: 2 years. There is a warrant for parts procurement for 10 years.
  - Quality Certificates: Our products are CE certified.
Maxi Train is a 4 car configuration and is comprised of one locomotive, 3 covered passenger wagons. Maxi trains have larger wagons for adults and children. Maxi Train is suitable for indoor and outdoor use. The main frame of steel locomotives and wagons for many years using water and shock resistant marine counter keeps its innovation without deforming. Maxi train is covered with foam and leatherette seating groups for the convenience of passengers.

**• LOCOMOTIVE**
- Maximum Speed: 10km/h
- Sizes (L*W*H): 300X115X190 cm
- Motor: 72V DC motor
- Batteries: 12 ad 200a Tracer battery - American Trojan Batteries
- Battery Charge: Automatic
- Charge Time: 8 hour
- Controller: 72V 200A
- Wheels: Back 4.50x.10' - Front 4.0x8'
- Weight: 850 kg
- Distance(km): 60 km full charge

**• WAGONS**
- Coal wagon size: 220x115x120 cm
- Passenger wagons size: 220X115x220 cm
- Terraces wagon size: 220X115x220 cm
- Max. carrying capacity: 500 kg/ each wagon
- Wheels: 4.00x8'
- Travelers: 36 children or 24 adult
- Turning circle: 7.5 mt
- Warranty: 2 years. There is a warrant for parts procurement for 10 years.
- Quality Certificates: Our products are CE certified.

• WAGONS
  Passenger wagons size: 300X150x215 cm
  Travelers: 45 children or 32 adult
  Warranty: 2 years. There is a warrant for parts procurement for 10 years.

• MOTOR SPECIFICATIONS (STANDARD)
  Brand: Deutz
  Motor Power: 43 hp
  Nominal Motor Revolution: 2000
  Maximum Torque: 1100-1400
  Fuel Tank Capacity: 55 liter
  Suction Type: natural
  Number of Gears: 4 main, 2 reinforcements
  Quality Certificates: Our products are CE certified.
If an object is detected, the train slows down or stops with the help of sensors. If the driver wishes, he can deactivate it.

This feature allows the wheels to turn and adds realism to the train. The Wheels In Motion rotate at variable speeds and in tandem with the speed of the train.

There are various sound effects that children enjoy on all the wagons.

Only pressing a button, the conductor will instantly generate smoke. The liquid that evaporates is glycol based. It is safe and non-toxic and can be used in an indoor.

With LED lights, the train becomes quite flashy and center of interest.
1. REAR VIEW MIRROR
2. WHISTLE AND BELL
3. HEAD LIGHTS
4. LED LIGHTS
5. DETACHABLE BUMPER
6. ANTI COLLISION
7. WHEELS IN MOTION
8. SMOKE MACHINE
